The PEER Review Process at Journal of Nepal Medical Association

We follow a formal peer review process, but it is more complex than a single step of expert evaluation. Different types of content undergo different levels of review. All original research is reviewed by experts from our editorial board, but not every submission follows the same process. Some papers do not require additional review, and others may be rejected early if they do not fit the journal's focus. Our goal is to ensure rigorous and appropriate review for each type of content.

Nepal Medical Association

expresses its sincere gratitude to

“Madhur Ramesh JNMA Trust”

(Founded by Dr. Madhur Dev Bhattarai
and Dr. Ramesh Prasad Acharya)

and

“Mathura Ratna Trust”

(Founded by Late Dr. Raghubar Baidya and later
augmented by Late Dr. Bharat Raj Baidya in memory of their
mother Mathura Devi and father Dr. Ratna Das Baidya)

for their contribution to publish this journal.
